# ReadyToTap Payment `for Merchants`

TURN ANY ANDROID DEVICE INTO A PAYMENT TERMINAL WITH JUST AN APP !

NFC

Bring contactless payment acceptance and add value to your existing services to merchants!

We offer a white label innovative Software POS solution aimed at facilitating contactless payment acceptance.

Easily accept all contactless payments; cards, NFC mobile wallets or wearables thanks to our solution compliant with the industry standards from PCI CPoC, Visa and Mastercard. Whether you are an acquirer or a merchant solution vendor, our white label solution is made for you !

FLEXIBILITY AND UNIVERSALITY

● **Simple :** The merchant will only need an Android NFC smartphone or tablet to accept contactless payments.

● **Cost-effective :** We offer a 100% software solution which cost of ownership is much lower than traditional payment devices.

● **Universal :** The merchant will be able to accept all contactless payment methods; cards but also digital wallets on smartphones or wearables.

● **Secure :** Our solution is compliant with PCI CPoC, Visa and Mastercard specifications. We use electronic payment standards (Nexo, ISO8583) to connect our platform to acquisition environments.

dejamobile

A MODULAR SOLUTION WHICH COMES WITH VARIOUS OPTIONS
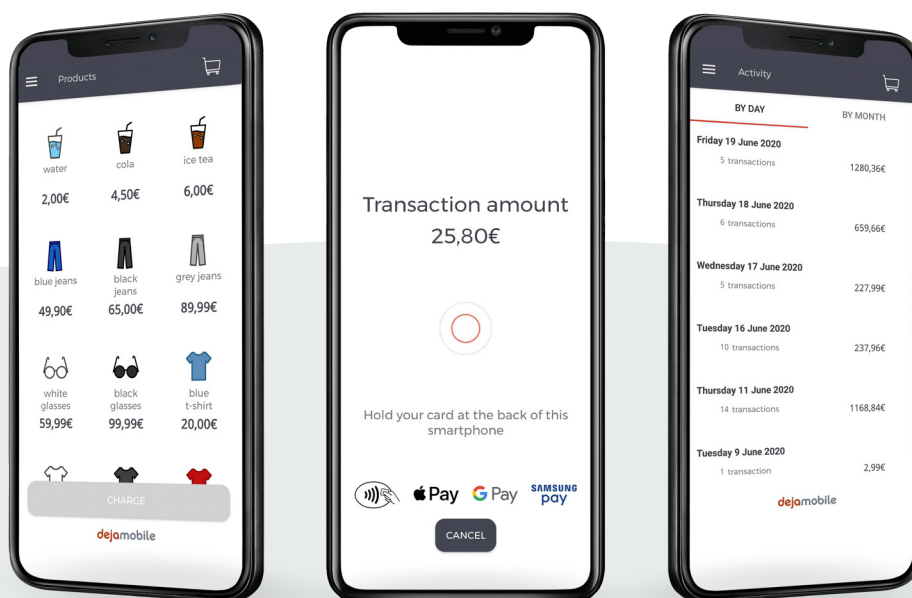

Simplified management of the product catalogue

A fully mobile product catalogue management system. Our solution can interface with cash register software for an integrated user experience.

Loyalty and mobile marketing

A marketing module to easily promote merchants' offers, engage with customers and improve loyalty with coupons and rewards. The merchant accepts the deals from the application thanks to its Merchant QR Code available to be scanned by the consumer.

Sales activity reporting and monitoring

A complete set of sales reporting dashboards accessible both via our mobile application and on a dedicated and secure management website.

Dejamobile is a Fintech provider of software solutions which facilitate the use of digital payments everywhere. We enable issuers, merchants and program managers to build their own mobile payment services.

Dejamobile's solutions are responding to various digital use cases; digital payments, mobile ticketing, digital retail... Dejamobile's clients includes major retail banks, Fintechs and card program managers.
